LEADERSHIP + MANAGEMENT ROLES (examples)

2018-2020 University of California Systemwide Senate Chair

I discuss my role as Senate Chair in my cover letter and in Addendum A of the letter.

2016-2018 Interim Associate Vice Chancellor for Global Engagement

In this role I initiated innovative approaches to develop partnerships with universities around the world. Most recently, the Vice Chancellor for research and I began the process of strengthening faculty connections with universities in India, with an eye to cultivating synergistic connections between, and within areas, such as social life and the life of technology.

2012-2016 Divisional Chair, UCSB

The unit includes 10 staff (two were the IT staff) and a budget of ~\$2.2 million.

Wide ranging role: including chairing budget, capital development and diversity campus committees

2011-2012

Chair, UC Systemwide University Committee on International Education.

2008-2010 UC Education Abroad Programme Study Centre Director, London

In this role I managed the Office for the Education Abroad Programme. I supervised three Programme Officers, one of whom I hired. The POs supervised student interns. I also managed the budget in this position – which was also on the small side: I think it was close to approximately £500,000 per annum*

2006-2008 Vice Chair, UCSB Senate

Whilst the Vice chair works under the guidance of the Senate Chair, I was invited to chair Committees that focused on examining the FTE student ratio to headcount.

2000-2002 Inaugural Editor for Meridians

In this post, in addition to my scholarly work I supervised the fledgling Editorial Office and set it up so that a Managing Editor could create the infrastructure, under my supervision, for a brand new, cutting edge journal. This work involved a considerable amount of supervision and mentoring and managing a budget of ~ \$300,000 per annum.

1998-2000 Vice Chair and Chair of the UCSB Senate Committee Planning and Budget Committee

In that role I advised the campus on budget strategies, including faculty hires.

I also co-chaired the Design Review Committee (capital development and architectural design) and the Campus Planning Committee. I was on the Chancellor’s Budget Strategies Committee for the campus.

Leadership/Management Roles (from 2012)

2017 -- 2018 and 2020 to present Associate Vice Chancellor, International Initiatives, UCSB

2018-2020 *Vice Chair and Chair University of California Systemwide Senate*

There is a staff of 8 to 9 people in the Senate office, to include the Executive Director/Chief of Staff, a Deputy Director and a number of analysts and assistants. The Senate has a budget of ~\$2,000,000.

As Chair of the Academic Senate I worked on issues that range from examining/advising on the budget for the university (which is likely to decrease by 10% in the coming year), developing admissions, curricular, research and educational policies, ensuring graduate students are supported, lobbying elected representatives in the California legislature, and working with all three segments of Higher Education in California: the UC, California State University system, (akin to the what used to be the polytechnic sector in the UK) and the Community Colleges (akin to FE). I am also a Faculty Representative to the Board of Regents.

The present academic year had its demands and challenges for the UC. As I stepped into the Office of Chair, the UC President announced her intention to step down on 1st August 2020. I identified and led a 13-member faculty group to assist the Regents' Search for a new President (we reviewed close to 600 names), and I also worked with a faculty search committee to assist the UC President to identify a new Chancellor for UC Merced (reviewing 400 possible names). In September 2019, I took the initiative to establish a Task Force whose charge is to propose if, and how, on-line undergraduate education could proceed at the UC (there are a number of graduate on-line courses and degrees), and a Task Force to extend faculty diversity at the UC; this month, the Senate now has a Climate Crisis Task Force.¹ In the past three months, the tragedy of the Covid-19 crisis, for that is what it is in the USA, has forced the UC to better grapple with how health care is provided by the UC and in the state of California, allowed me to become even more financially literate regarding the close-to \$35 billion budget of the UC, of which approximately \$4 billion comes from the state legislature. I have also become fluent in the language of health care costs for the UC, and for that state. For the University of California, I chair the Budget Committee with the UC Provost, am Vice Chair (under the Provost) for the Academic Planning Committee, and presently chair of the Academic Advisory Committee that advises the Regents on the selection of a new President for the university of California.

¹ I am happy to discuss the recommendations from these Task Forces.

2012-2016 UCSB Divisional Chair

The management function of this position included being head of a unit with 10 staff (two were the IT staff) and a modest budget of ~\$2.2 million.
